About This Game

SUMMARY:

Princess Darlene has vanished. The King is completely broke.

His only chance is to ask his closest friends for help.

And one of them is a natural choice, having been there when it happened.

But the shock of it has wiped out most of the memory, and your only clue remains a torn parchment.

Choose among a knight, a witch, a minister even, and several others, and try to find out what happened to the King's daughter.

But choose well, because much more than actual professionals, these people are first and foremost the King's best friends. Will

they end up heroes, or zeros?

You have a say in the matter!

if you dont have the a2a c172 get this!. The game is decent, with a pretty good story. It really brings up memories regarding retro games. It looks like the devs tried to make it different than the RPG Maker games by adding several different features like the fighting, mining and woodcutting.

The con of the game is the fact that you have to walk a looooooot. I will give it a Thumbs up for the moment. Will see how the story evolves as I progress.. The murders, mysteries, and intellectual battles continue (and conclude) with the "Answer Arcs" of Umineko (also known as Umineko Chiru) that consists of Chapters 5-8. Let the crazy violence go on! Muahahahahahaha!

Chiru picks up right where we left off at the end of Chapter 4, so obviously you will have wanted to play the first half of the game already before getting into this. But while the "battle" might have seemed like it had ended, the gameboard is hijacked and the games continue even without the "Golden Witch" running things. What follows is a further expansion of the already enormous cast, a greater emphasis on trying to explain the events on Rokkenjima as a "mystery" rather than a "fantasy", and more crazy murders. As in the first half, you get to see more of established characters and find out more about them, though what you may learn could dramatically change your opinions of them. Be prepared. :o

Is the story of the Rokkenjima massacre one where a witch unleashes her power and minions, or a carefully planned mass murder at human hands? Is the massive meta-world of witches, angels, and demons real, or part of the imagination of a killer? What really happened on Rokkenjima during those fateful days from October 4th to October 6th, 1986?

The rest of the clues and your ultimate answer to whether or not the story is a "fantasy" or a "mystery" can be found here in the Answer Arcs: Umineko Chiru.. It's a horror movie that inspired me to continue my education.

Remember those television shows where they put troubled kids into prisons for a few days so they can experience life on the "other side"? Well, this short video is pretty much like that.

Remember kids: don't be like these a@#holes, stay in school.. One word. Swordfish.. I am a big fan of oldtimers, it is a good idea to race with em! Great tracks, cool cars with performance/visual upgrades, a nice rock music from the 60's, however, that song is the only one.

The game is short, but kick@ss. I had the feeling!. Used 73 minutes to finish this game, and it was PURE pleasure. Worth every penny! 11/10 would play again!. it's the greatest game of all time, cuz it's so♥♥♥♥♥♥♥♥♥♥easy, but seriously the AI could be a little more interesting. other than that the game is the gratest game of all strategy games that I have played. Fun little puzzle game. It requires a bit of trial and error for some bits of it, but it is overall an enjoyable puzzle game.. English:

Be aware! Only the Equipment will have that Skin. The Medics themself will still have their standard Skin!

I'm slightly diappointed, because i thought that the Skin also appies to the clothings\suits.

Further the skin of the Equipment (Granadelauncher, Sniper etc.) is not much of a change.

My opinion: Sadly not worth the Money.

Deutsch:

Vorsicht! Nur die Ausr\u00fcstung hat den Skin! Die Charaktere selbst haben weiterhin den Standard-Skin!

Bin leicht entt\u00e4uscht, weil ich dachte dass es sich auch auf die Klamotten etc. auswirkt.

Au\u00dferdem ist der Ausr\u00fcstungs-Skin (Granatenwerfer, Sniper etc.) optisch nur ein kleiner Unterschied zum standard-Skin.

Meine Meinung: Leider nicht das Geld wert.

super fun, but very hard game! New easy option helps, but this is one tough \u2665\u2665\u2665\u2665ing game!. Very interesting simulator game and a great developer behind it.. Don't pay anything for this. It would be fine as free DLC as at least you wont be paying for 5mins of stuff you saw in main game, the minimal amount of puzzle in which you are told exactly what to do before doing it. Can agree with all the other negative reviews for this, all of them are spot on.. Fun little game to play when you're bored.. The only game where you can make your creation love you, and then kill it ways that suggest our "hero" is a psycho.

In essence this is a raising SIM/ job management game. You'll create your daughters, send them out to do jobs while you can accept requests from the villagers, and keep their happiness up so they'll work hard for you before you "retire" them. Now with out spoiling, you don't have to do the ritual at the end of the month you can wait and build up points if your aiming for a specific number. Also, never take requests unless you already have the materials or know you have a girl who will provide them in time.

The atmosphere is perfect and the plot unfolds slowly, but this is a game where you are clearly meant to take your time and experiment. If you want a dark game that takes time to give you the juicy details then this is the game for you, but if you want a straight forward storyline that has defined chapters then no that's not how this game rolls. I'm nowhere near the end, but I tip my hat to the developers never did I think that is want to play as Shou Tucker that actually loved his real daughter.....I think.. Fantastic flashback of the 80's when I was a kid sitting on the floor playing Paper Boy on the NES. Great game, nicely made and fairly addicting.. Bugged, crush in game - confirmed. = Unplayable...
